

Earthcast 2009

What is Earthcast?

Earthcast is a 24 hour long broadcast that includes people on four different continents celebrating Earth Day on April 22nd.

How can I listen?

Go to <http://earthbridges.net/live> log in with your screen name and NO password. If you don't hear the broadcast, click the arrow in the big window to the left. If you still do not hear, type in the communication room for assistance.

How should I behave?

This is a global broadcast including people of all ages. Both the audio and the chat are archived (records are made of both). Act accordingly.

Where is the schedule of events?

Go to <http://earthbridges.wikispaces.com/Earth+Day+2009> to see the current schedule. The Earthcast begins at 00:00:00 GMT or 8:00pm Tuesday. It lasts until 23:00:00GMT or 7:00pm Wednesday.
